Salathiso had fallen behind in class and the work was over her head. Her teacher, Ms Khonzi, has 35 other children in the classroom and doesn't have time to sit with Salathiso. Without intervention, Salathiso most likely becomes one of the 50% of all children that drop out of school before Grade 9.

Instead, Khanya has stepped into her life. Masi has hired and trained Khanya to become a literacy coach. Khanya now sits with Salathiso for one hour at least twice a week, providing a customised lesson at Salathiso's current reading level. We will work with her every week until age 9, slowly but surely developing the foundation of reading that she needs.

As you can see to the right, Salathiso is making incredible progress. Khanya is one of hundreds of youth Masi has hired over the years to become a reading coach. Previously unemployed with low prospects of finding a job, she is now a leader in her community, earning an income and helping to ensure that the next generation of children receive the education that they deserve.

66 JOBS CREATED

Previously unemployed youth are now working in their local community schools

Job creation in the community

In 2020, we created jobs for 66 youth in our Children's Education programme. 56 of these youth serve as literacy coaches.

As noted above, the youth have played a critical role in our Covid-19 response, helping us roll out the food parcel project and launch a children's television show. In August, they helped schools reopen by taking entire classrooms when teachers were absent. We also restarted all of our literacy sessions, providing children with the critical one-on-one assistance that so many need.

These jobs give the youth with the opportunity to earn an income, gain work experience, receive training, and take part in uplifting their own community's children. During a pandemic, the jobs enabled the youth to serve as heroes in the community. Stepping up and making a difference while so many (such as older teachers) are trapped at home.

We were very proud to see them rise to this challenge.

Meet Lesley

Ethel Mavaivai was born in Zimbabwe and fled the country with her family. They settled in Port Elizabeth, South Africa. Life is not easy for a refugee and South Africa has never been kind to immigrants. The past decade of xenophobic violence will be a scar on the country's history for a long time. Despite this, Ethel worked hard in school. Very hard. She would graduate at the top of her class and qualify to attend university. Unfortunately, there are zero funding opportunities for Zimbabweans. They do not qualify for financial aid and are unable to borrow money from banks. With both her parents being unemployed, Masinyusane was Ethel's only hope. With your generosity, we have provided a full scholarship.

“Thank you so much for everything you have done for me, you have brought hope in my life. You made me step my legs through the university gate. I will never forget you in my life. Thank you so much.”

We are a partnership of nonprofit organisations in Nelson Mandela Bay, South Africa working together to support the city's most vulnerable children and families during the Covid-19 pandemic.

Combined, our organisations have over 40 years of experience working in community development in the city. We have deep ties to our communities, relationships with over 100 schools, thousands of beneficiaries and experience in delivering high impact projects.

Now for the numbers

Masinyusane takes great care to invest our donors' contributions in high impact projects that make a difference. We maintained a project-to-overhead ratio of 91% to 9% in South Africa, ensuring our donors' money is being spent efficiently.

The bulk of the University Students' funding supported **student tuition, bus fare, and housing**.

The bulk of the Children's Education funding went towards our **library and literacy initiatives**.
